**General Contractor:** Whiting-Turner Construction, HITT Contracting, Davis Construction, Coakley & Williams Construction

### PM Services Provided:

- Oversee Design, Construction, and FF&E
- Contract Bids and Negotiation
- Budgeting and Scheduling

### Project Highlights

JFW managed projects over a five-year period on two campuses, both of which were occupied for the duration of the work. Projects included construction of a 72,000 SF underground gold-LEED athletic center with an artificial turf football field on the roof; repurposing of a 1960s gym into an award-winning platinum-LEED Meeting House and Visual Arts Facility, which included a façade replacement, new exterior waterproof envelope, and roof windows; two 40,000 SF additions to the platinum-LEED, award-winning middle school, complete with constructed wetlands that treat and recycle wastewater on-site, solar chimney, and façade and mechanical system replacement; renovation and addition to the lower school, including a new gold-LEED gymnasium; and addition and renovation to administrative offices. All projects were completed on time. JFW also coordinated the purchasing of all soft goods, including tele/data, AV and security systems.
