

## Washington Golf & Country Club Arlington, VA

Architect: MTFA Architecture, Inc.

General Contractor: Corbett Construction

### PM Services Provided:

- Oversee Design, Construction, and OF&E
- Contract Bids and Negotiation
- Budgeting
- Scheduling

### Project Highlights:

\$15 million renovation of clubhouse.  
Space was occupied throughout the project.

*"Our project involved many aspects that complicated the construction process; our membership insisted on occupying the space during all phases of the construction, the facility was over 50 years old and there were no reliable as-built drawings, we hired a new General Manager in the middle of the project and the level of finishes was carefully scrutinized. One of the consistent elements of the job was JFW's presence and direction."*
